

# Exhibitor Safety Guidelines

## Ozarks Steam Engine Association

*Adopted September 2002*

1. **Please use low gear when moving any piece of equipment.** A good rule of thumb is to drive all vehicles (tractors, antique cars and trucks) in low gear. Watch for spectators and pedestrians at all times.
2. **Use extreme caution when riders are on your equipment.** If the operator is younger than 15 years old, we recommend that only the operator ride on the tractor. Tractors with fenders may have more than one passenger if they can ride in a safe manner. The owner of the equipment should accept the responsibility of how many can safely ride on a piece of equipment. Tricycle-type tractors should have only the operator. However, if someone can safely ride by standing between the seat and the steering wheel and holding on, this should be OK.
3. **Never leave any running equipment unattended.**
4. **No alcohol is to be consumed or served on the show grounds.**
5. **We strongly recommend double roping off three feet from your display if you are showing gas engines or equipment that is belted up.** This will help keep little fingers out of moving pulleys. **We also recommend a fire extinguisher be accessible and fuel in closed containers stored at least six (6) feet from running engines.**
6. **The Ozarks Steam Engine Association shall inspect all steam engines and boilers.** No boiler shall carry more than 125 lbs. of steam.
7. We encourage all boilers to carry at least two inches of water in the water glass at all times. If for any reason you have trouble and get below two inches, move the engine to the north side of the grounds and seek help.
8. **Engineers**, when you rake out the ashes from the ash pan, be sure to spread them out and make sure that all hot coals are out. This will prevent someone from stepping in the pile of ashes and getting burned.
9. Please **register** your golf cart / Gator / ATV, etc. Use safety when operating your vehicle. No underage drivers, please.
10. Parking in the grounds is limited. Please use the parking lots (especially family members) when possible.
11. All **firearms** are prohibited on the showgrounds.
12. **Please do not operate your equipment during the Sunday morning church service (8:30– 9:00.)**
13. If you are a new exhibitor to our show, a member of the Safety Committee may want to go over the guidelines with you. If you have any questions, please contact one of our members.

**Thank you for helping to make this year's show a success!**  
We look forward to seeing you next year – September 13-16, 2012
